WEDNESDAY, FEB. 13, 1856

Democratic organs are undertaking to hold National Americans responsible for the Speakership of the House of Representatives.

To be sure, not one of the National Americans were still determined that no Damocral should be elected through American aid. They were still watching and longing for a union between the Americans and the Black Republicans and correction occartic competitor, and on this ground the Sag Nicht press assume to hold the whole National American party responsible for the success of the Freezolders. They might as well remember that two even of their own party refused to vote for Aiken. We certainly don't think is own party no longer. That paper spoke out to vote for Aiken. We certainly don't think hat the National American party is any more thus:

to vote for Aikea. We certainly don't think that the National American party is any more consurable occause five or six of its members didn't vote for a political opponent to prevent a certain result than the Democratic party is because five of its members refused to vote for a political opponent to prevent a certain result than the Democratic party is because five of its members refused to vote for a political opponent to prevent the same result. Assuredly there was very considerable reason with a proposition of the Mark down Americans shouldn't vote for a Sg Nicht to keep out a Freesoiler, but what reason could the two Sag Nichts have to refuse the explainted?

We have no doubt but that we understand the matter thoroughly. The Democrat of the first want one of their own number elected to the Speakership. They didn't want the responsibility which the possession of the Speakership would devolve on them. Of course they had to pretend to want it, and, for the sake of appearances, they had to vote for one of their own neap, but they would have been promptly accepted, and that Southern the Speakership would devolve on them. Of the Speakership would devolve on them to the Speakership which the possession of the Speakership which th an understanding with their political friends and from an apprehension that Mr. Alken mig! be elected. They probably did not know. at the time their votes were cast, whether their tools of from Alken was necessary to the election of Banks or not, but they wished to make the result certain. If it had appeared necessary, that more Democrate should go off to secure the success of Banks, then more would have got and occupies before the country an unenviable and occupies before the country an unenviable and occupies before the country and unenviable and occupies the country and unenviable and occupies the country a understanding with their political friends wheever they are, they ought to be held up n at a the Democrate should vote for Al-with the exception of two or three or four le last, and that the exhemit the should the same should be same should the same should be same somebody else in the event of its appearing that each a movement was necessary to prevent the workward misbap of his election, but of course he party knew that the trick would then be mainf at to the eyes of the whole world.

From the very day of the assembling of the whole were assembling of the whole were assembling of the whole were as the world where is thy blush!

embers of Congress a Washing- After this, matters went on in the old fashio ton, they made it perfectly evident that they until the adoption of the plnrality rule by the were de ermined not to have the cooperation of House. Then all the National Americans ex-National Americans in the election of a cept max, in order to prevent the election o mocratic Speaker under any circum tancer Banke, voted for Mr. Aiken, a political oppo Democratic Speaker under any circum tances. They were afraid that the National Americans, preferring a Democrat to a Black Republication the Speakership, might secure the election of the Democratic candidate, and so they resolved to adopt the most effective measures possible for preventing it. The durling purpose of their souls was to force, if practicable, the National Americans and the Black Republications and the Black Republication of their souls was to force, if practicable, the National Americans and the Black Republication of their souls was to force, if practicable, the National Americans and the Black Republication of their souls was to force, if practicable, the National Americans and the Black Republication of their souls was to force, if practicable, the National Americans and the Black Republication of their souls was to force, if practicable, the National Americans and the Black Republication of the session, at all the souls was to force, if practicable, the National Americans and the Black Republication of the session, at all the souls was to force, if practicable, the National Americans and the Black Republication of the session, at the proposed of the speakership, might secure to solve the speakership, might secure to solve the speakership, might secure to solve the solve the solve the secure of the session, at the solve the speakership, might secure to solve the speakership, might secure to solve the solve the solve the solve the six was from a south six of the six was from State. Perhaps it is not very surprising that we not very surprising Selection of the control of the cont

of one of their own men by the aid of the Na-tional Americans. Such a result would not queries to us in relating to the running of but rly bave exposed them to re-ponsibility but one train a day through from Loui ville to Lexhe cry of a coalition between Americanism and will have upon the Lunn so and travel between ally careful to have enough of their own num-er vote against him to prevent his election would occasion a loss of business; but, as the They deliberately and pertinaciously refused to is an equally good road to Ci innat fi oted for him he would be elected, and though ble tendency will be to done learly all the bu

tents and purposes, for the non-organization of whilst, with a su gir tr ze by the elevation of one of their own number from hours. It is quite apparent that the offered aid of the patriotic Americana, but trade of o'r rich interior count es to Ci again voting in a solid body for their I inc. this community is to deal with Lor isry, when the Hon. Percy Walker, the ps-ed by Cincinnati in every possible marious American Representative from the Mc-"One accoumodation train and o

ole district in Alabama, after consultation with train look to me like a one-horse concern for the other National Americans of the House, re-solved to make another effort to end the long and lamentable cortact by the election of a ken by our Lev gion core and most excellent speech, which is now before of the railroad, and, if need be, a spur from our friends were to effect an organization trade of those counties of which Lexingto

tion that the Hon. Wm. W.
